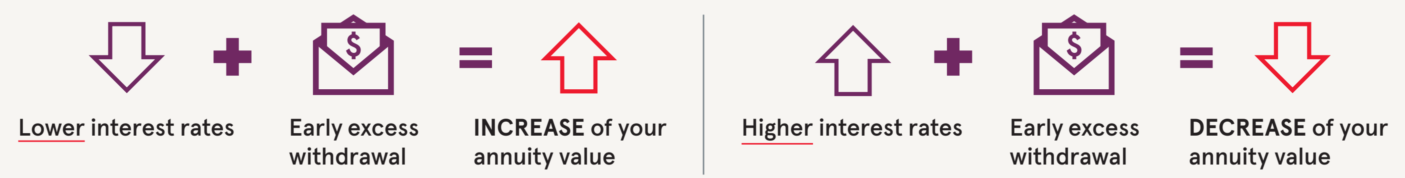
How a market value adjustment impacts your annuity

A market value adjustment (MVA)* can account for interest rate fluctuations by increasing or decreasing the value of your annuity. But the MVA is only applied if you withdraw money from your annuity during your surrender period and in excess of the free withdrawal amount in your contract terms.

How it works

The impact of an MVA is an inverse relationship between interest rates and the value of the annuity. We reference the state of interest rates when the annuity was purchased to the time of the excess withdrawal to value whether interest rates have increased or decreased.

Impacts of an MVA on your annuity



For illustrative purposes only.

Jackson® is the marketing name for Jackson Financial Inc., Jackson National Life Insurance Company®, and Jackson National Life Insurance Company of New York®.

*A market value adjustment (plus or minus) applies during the withdrawal charge period on amounts withdrawn in excess of the free withdrawal amount. In no event will a total withdrawal be less than 87.50% of the premium, net of applicable taxes, reduced by partial withdrawals (after being reduced for any applicable withdrawal charges and then adjusted for any applicable market value adjustment), accumulated at the initial guaranteed minimum interest rate.

Not for use in California.
Please see reverse for important information.

Not FDIC/NCUA insured • May lose value • Not bank/CU guaranteed
Not a deposit • Not insured by any federal agency

What is an annuity?

An annuity is a long-term, tax-deferred vehicle designed for retirement. Earnings are taxable as ordinary income when distributed. Individuals may be subject to a 10% additional tax for withdrawals before age 59½ unless an exception to the tax is met.

Jackson, its distributors, and their respective representatives do not provide tax, accounting, or legal advice. Any tax statements contained herein were not intended or written to be used and cannot be used for the purpose of avoiding U.S. federal, state, or local tax penalties. Tax laws are complicated and subject to change. Tax results may depend on each taxpayer's individual set of facts and circumstances. You should rely on your own independent advisors as to any tax, accounting, or legal statements made herein.

Guarantees are backed by the claims-paying ability of Jackson National Life Insurance Company or Jackson National Life Insurance Company of New York. They are not backed by the broker/dealer from which this annuity contract is purchased, by the insurance agency from which this annuity contract is purchased or any affiliates of those entities, and none makes any representations or guarantees regarding the claims-paying ability of Jackson National Life Insurance Company or Jackson National Life Insurance Company of New York.

Withdrawals in excess of the free withdrawal amount during the withdrawal charge period or the MVA period, as applicable depending on the product, may be subject to an MVA. The detailed MVA calculation may be found in the contract's withdrawal provisions.

Annuities are issued by Jackson National Life Insurance Company (Home Office: Lansing, Michigan) and in New York by Jackson National Life Insurance Company of New York (Home Office: Purchase, New York). Variable annuities are distributed by Jackson National Life Distributors LLC, member FINRA. May not be available in all states and state variations may apply.
